

# PROTECT BUNKER BOARD

**NONSLIP**

**WATER RESISTANT**

**IMPACT RESISTANT**

**FIRE RETARDANT**

**BUNKER BOARD** is a heavy duty, fire retardant, high impact resistant synthetic protection board. It provides superior protection on the jobsite from heavy gang boxes, heavy impact and heavy forklift traffic. Bunker Board has been designed to replace Plywood, masonite and corrugated plastic sheets. Bunker board is antimicrobial and antibacterial and will not absorb moisture, making it a great fit for healthcare and institutional job protection.

**NONSLIP & WATER RESISTANT BUNKER BOARD** has a textured non-slip water resistant surface for walking on that reduces safety hazards on your jobsite and a felt underside that reduces abrasive damage to the surface being protected. It is test-proven slip resistance in wet conditions.

#### **IMPACT RESISTANT & FIRE RETARDANT**

Extremely high impact resistance. Heavy traffic ready.

**PART NO.**  
PTBBF-G

**DESCRIPTION**  
Nonslip, water and impact resistant, Fire Resistant Plastic Board 4' x 8' sheet
