

PROTECT WINDOW FILMS

PROTECT® WINDOW FILMS (2 - 3mil. self-adhering polyethylene) stay in place to protect your windows, window frames and glass from over-sprays, mortar stains, muriatic acid and more. The film allows light in, makes it easier to work in the room while protecting your windows. They are safe to leave on surfaces for 45, 180 and 365 days respectively. Save time and money by protecting window glass, window frames, countertops, cabinets, lexan™, extruded vinyl, or any factory finished surface.
